This article details a project aiming to recreate the heroes of the Han Dynasty within 15 days, challenging the limits of Wan2.2. It involves various aspects of content creation, including music, scripting, image generation, video production, and the use of robust prompting techniques. Key points include:1. Creation Motivation: Participate in the competition after the release of Wan2.2, be inspired by film analysis, and experiment with accumulated prompts.2. Music Creation: Select Suno as the tool, input prompts, edit and remix unsatisfactory segments, and export multi - track music for later use in video editing.3. Script and Storyboard: Only determine the general framework based on music and theme, and improve through continuous practice.4. Image Generation: Choose image - to - video for better consistency. Use Midjourney for consistency, design character settings, and experiment with style prompts.5. Video Production: Understand models from official documents, select videos based on performance and viewing experience, and use tools for high - definition enlargement and frame - filling.6. Robust Prompting: Construct prompts using the RTF structure, ensure comprehensive and clear information, use positive expressions, and enhance model performance with few - shot examples.7. Multiple Prompting Assistants: There are different prompting assistants for text - to - image, video generation, and seamless transition design between start and end frames, each with its own workflow and rules.

WaytoAGI-鹏影像乐队写一首歌一样去做片子：一个节奏型、一个和弦进行、一段旋律"汉武长歌"的动机就是音乐，所以先从创作音乐开始这个片子来讲，只根据音乐和主题确定了大体框架，然后边做边看角色：先出人设图（正、背、全、特），然后上传在omni中使用，根据出图效果调整权重。另外提取出典型特征描述：如性别、国籍、年龄、服饰、武器等风格：加入角色一致性，然后尝试各种风格提示词，得到满意的风格后，固定风格词谁是最强开源TTS？8款主流开源TTS大测评✏️7月笔记CommentsWaytoAGI-鹏影19:15 Yesterday0 words
